MODÈLE 1

MODEL 1

Topographie et pendage des couches (règle du V dans la vallée)
Topography and bedding dips (rule of the V in the valley)

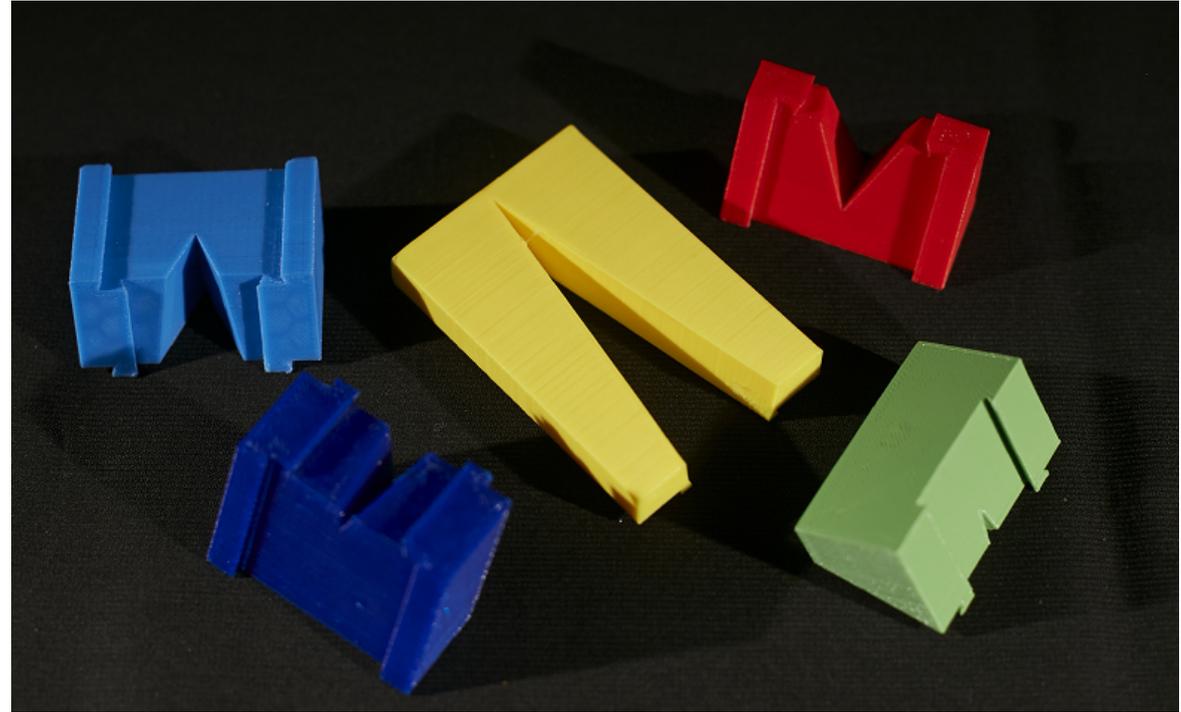

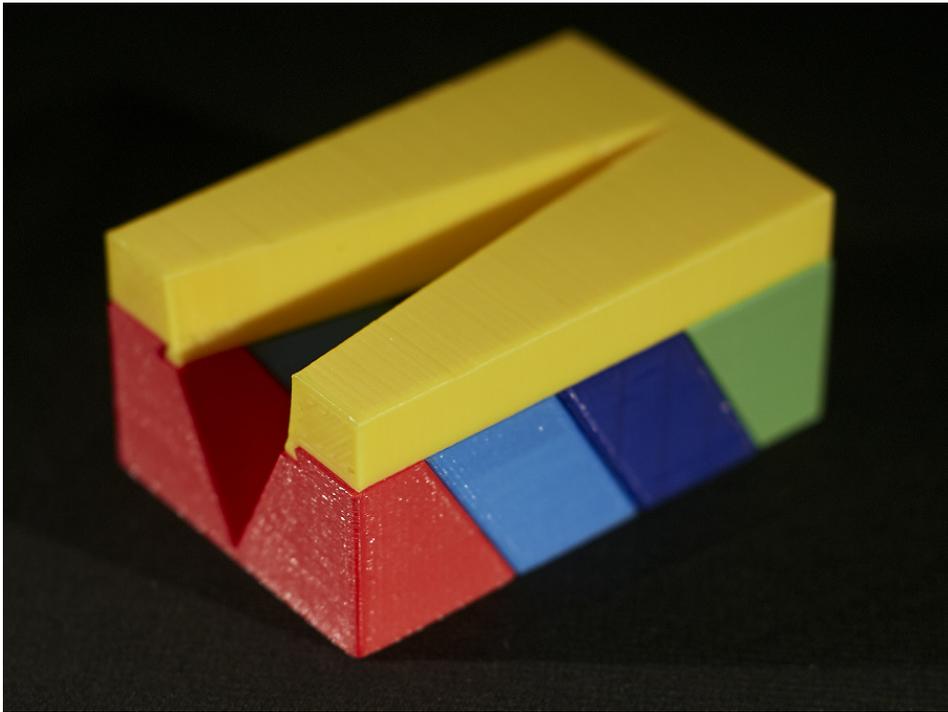

Les deux modèles A et B sont fournis.
Models A and B are provided.

MODÈLE 2

MODEL 2

Discordance 1
Unconformity 1

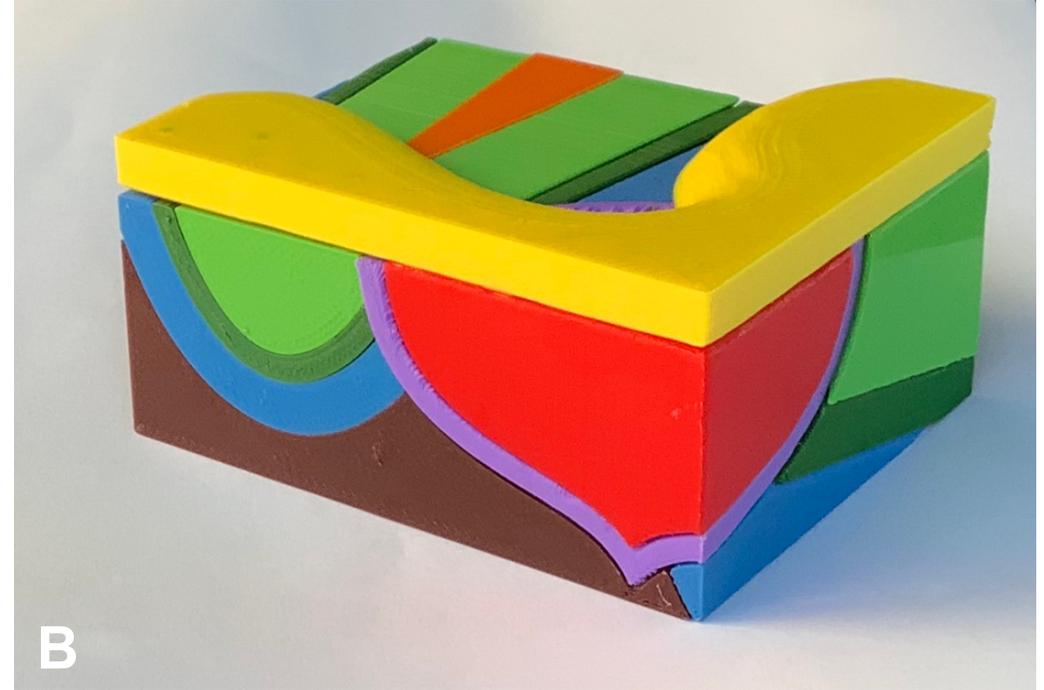

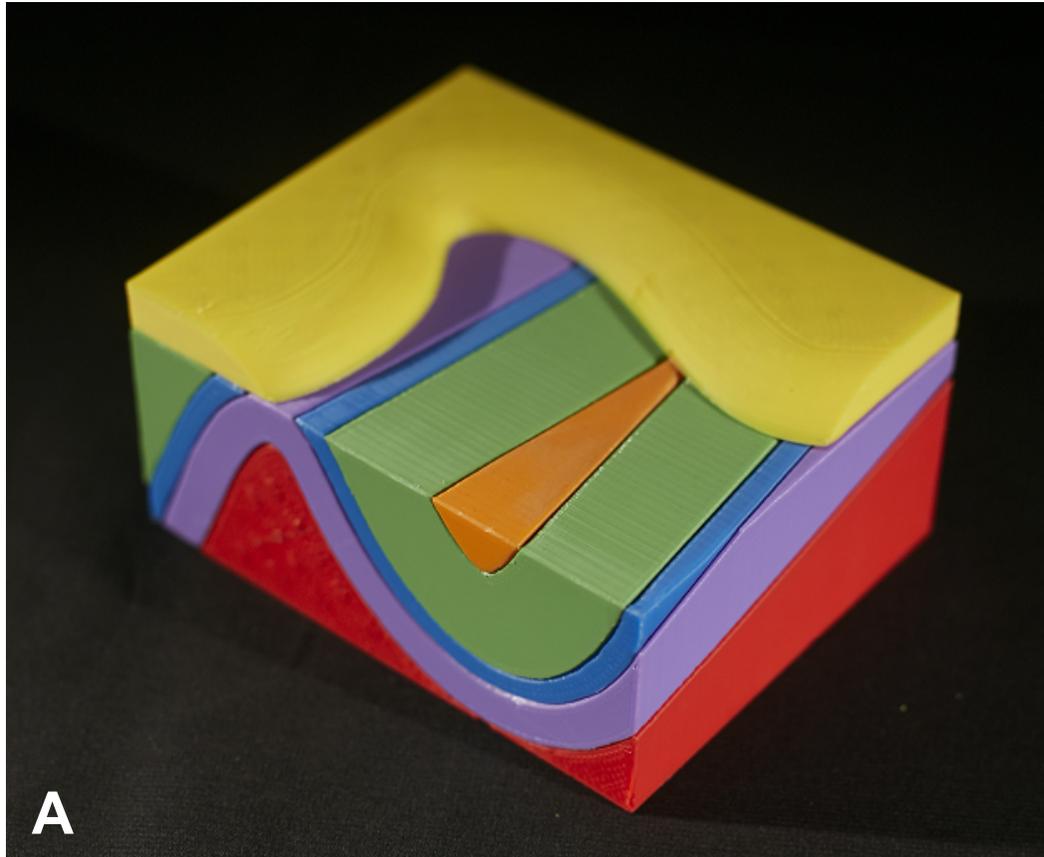

Le modèle est démontable comme un puzzle 3D.
The model is demountable like a 3D puzzle.

MODÈLE 3

MODEL 3

Discordance 2
Unconformity 2

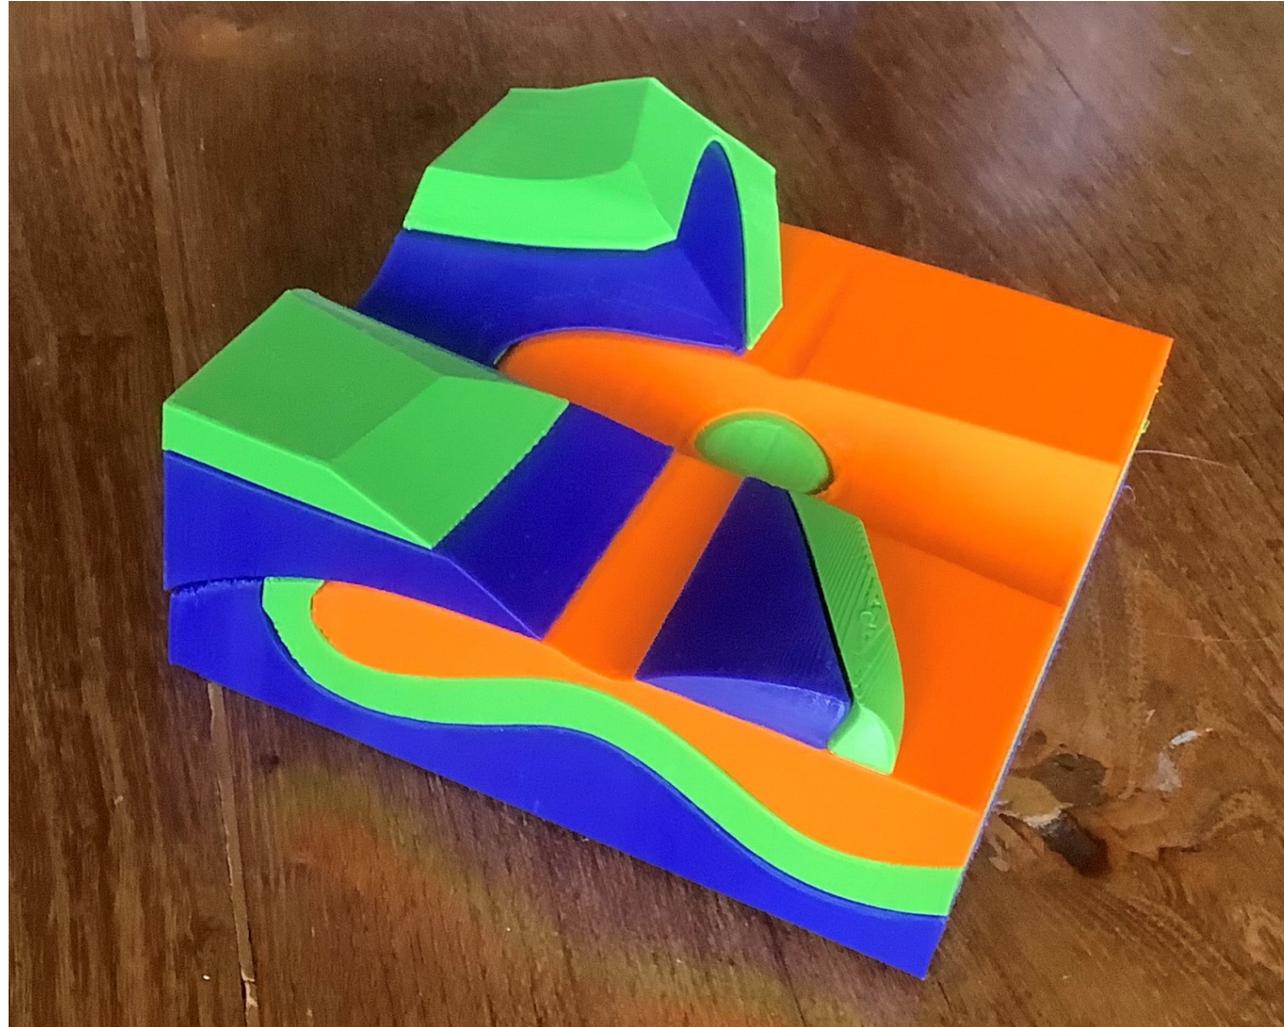

Les deux modèles avec ou sans intrusion de granite sont fournis.

The two models with and without granite intrusion are provided.

MODÈLE 4

MODEL 4

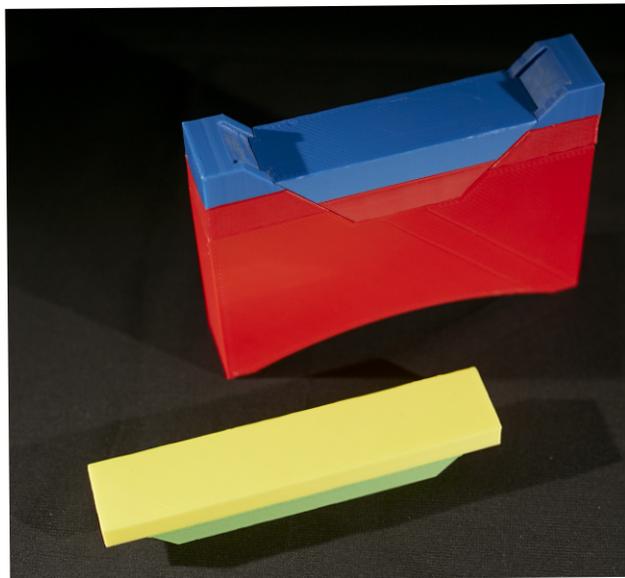

Chevauchement
Thrust-fault

MODÈLE 5

MODEL 5

Failles Faults

Un socle représentant la croûte est également fourni
(ainsi qu'une couverture sédimentaire).

*A basement representing the crust is also provided
(as well as the sedimentary cover).*

MODÈLE 6

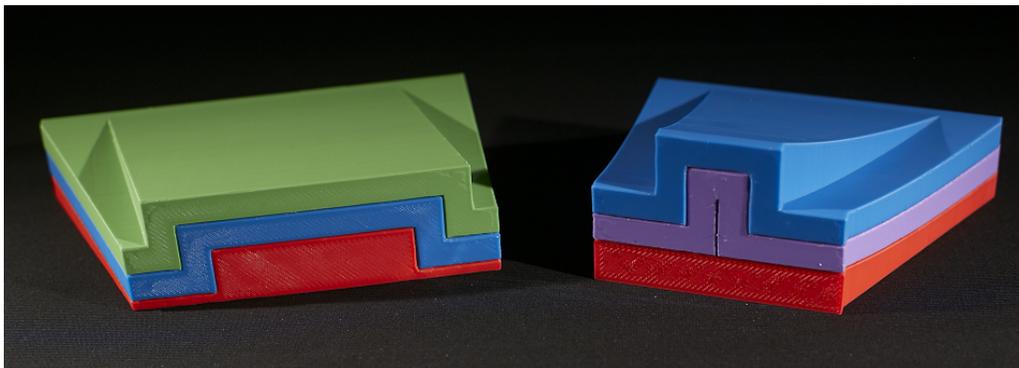

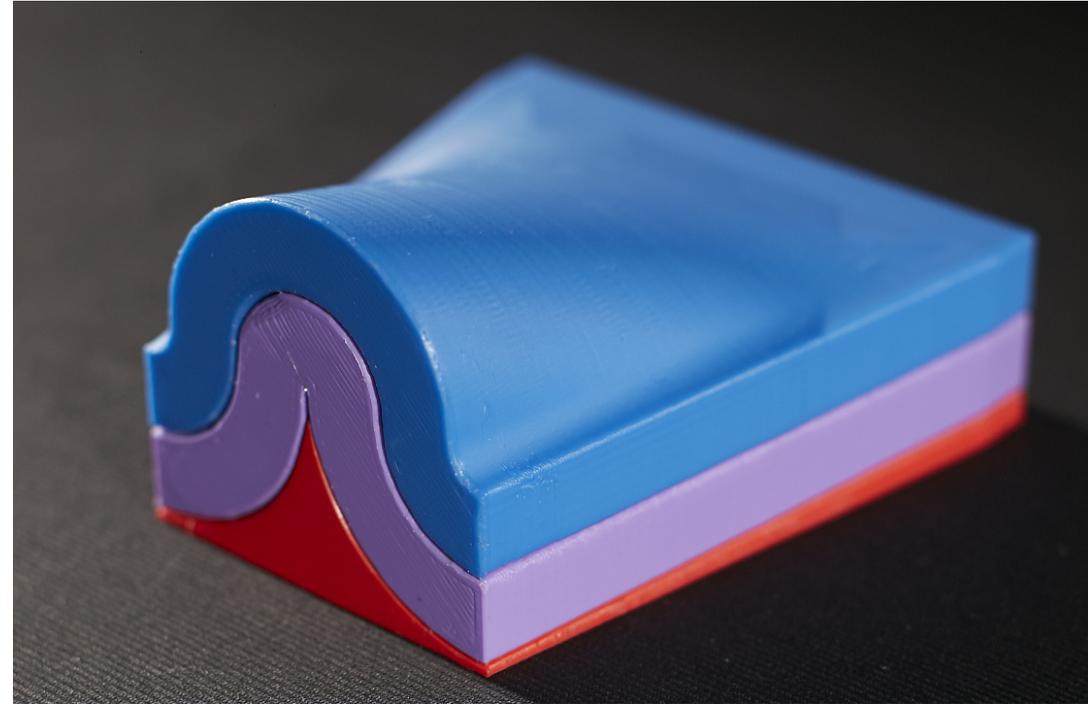

MODEL 6

Pli de décollement

Detachment fold

Le modèle est démontable.

The model is demountable.

Deux modèles de plis coffrés sont aussi fournis.

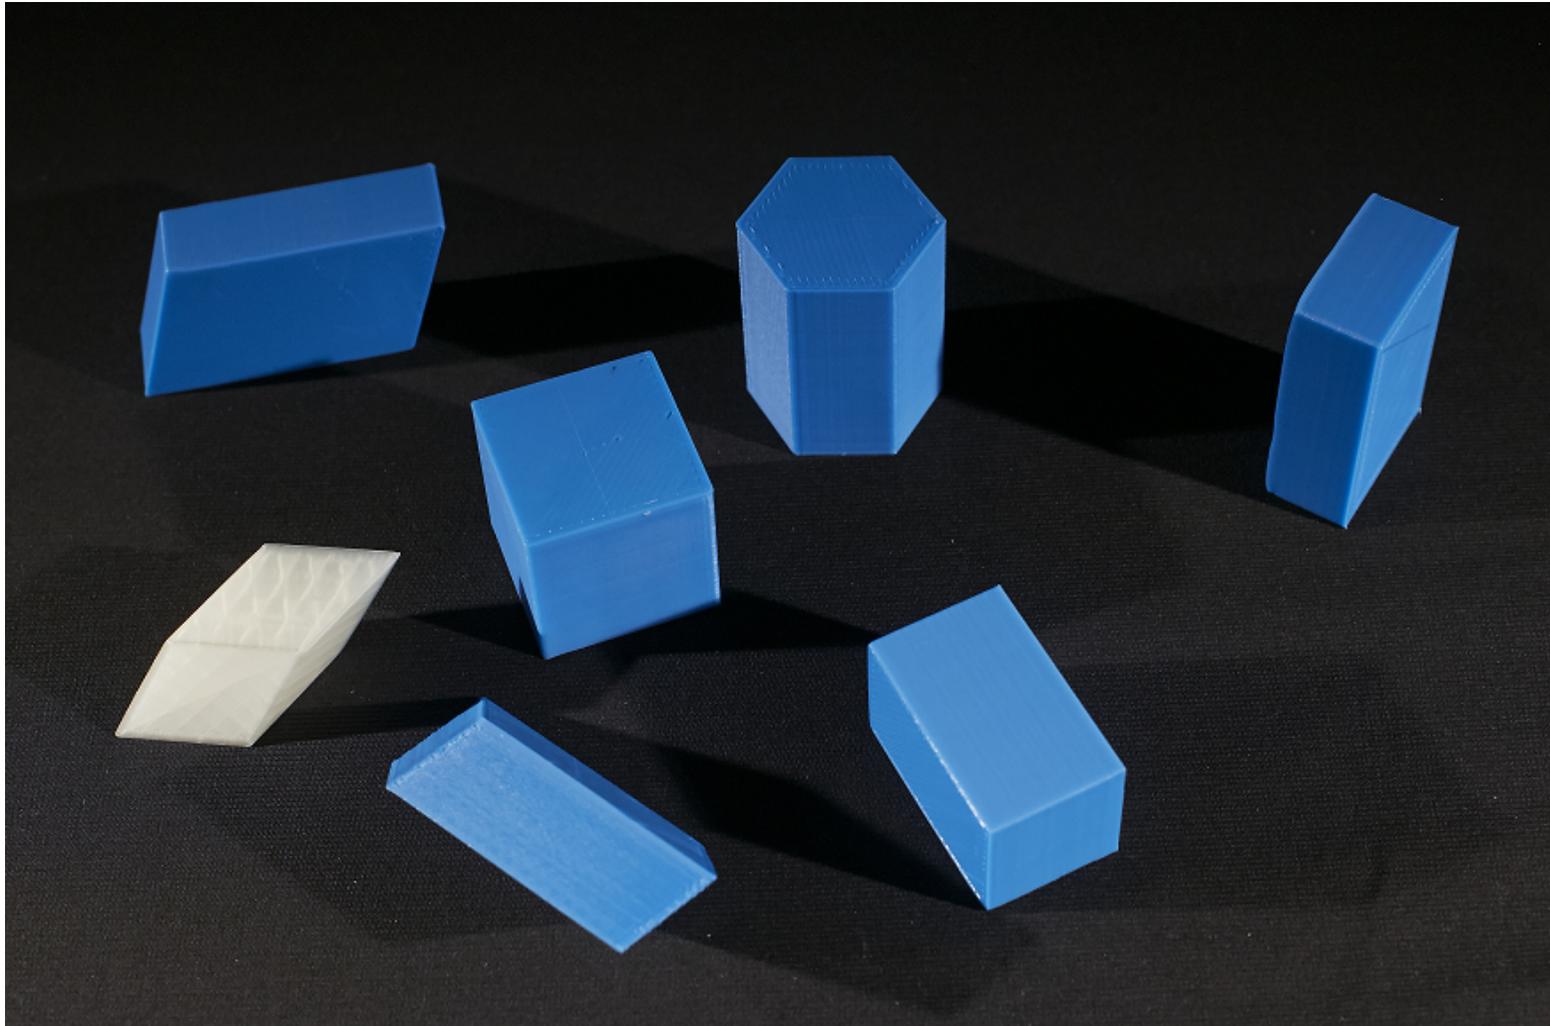

Two models of box folds are also provided.

MODÈLE 7

MODEL 7

Les systèmes cristallins

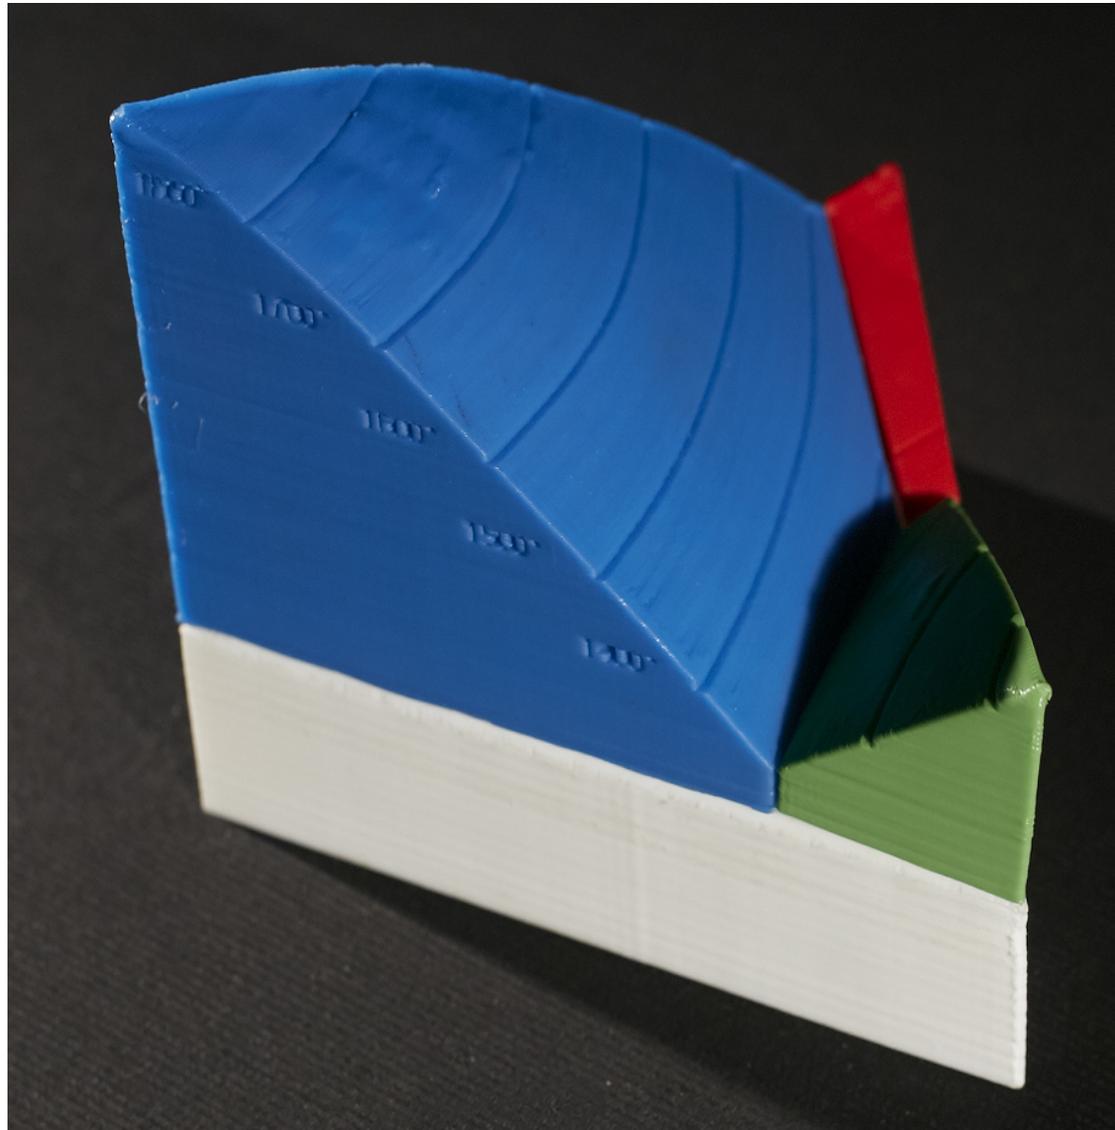

The crystal systems

MODÈLE 8

MODEL 8

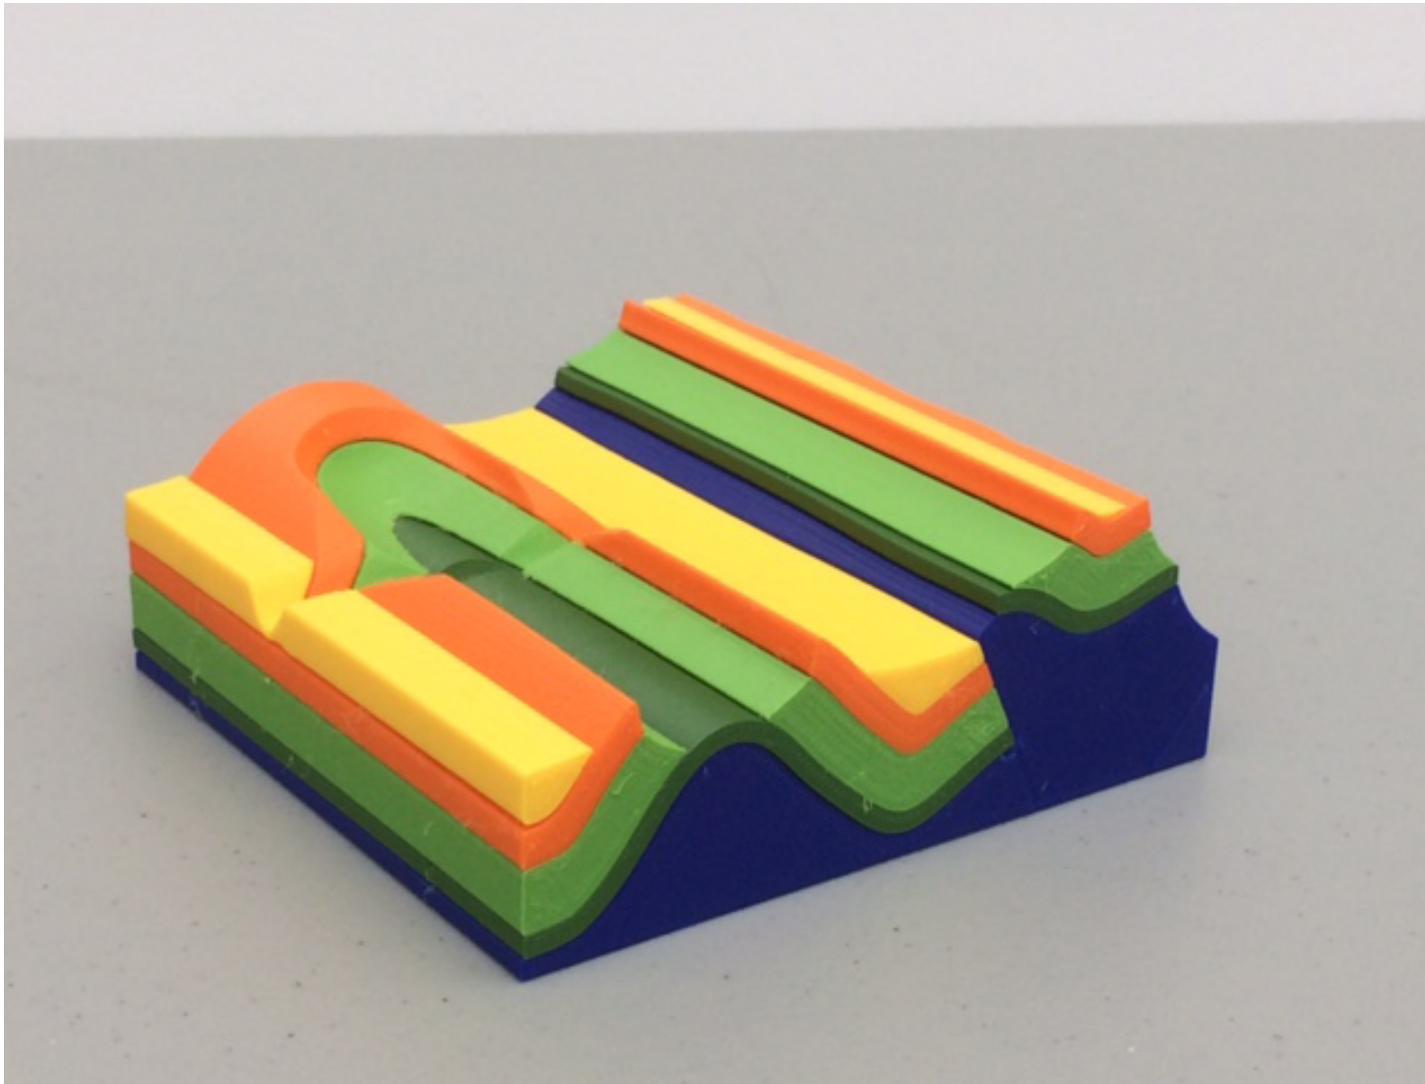

Diagramme ternaire forsterite-anorthite-diopside
Forsterite-anorthite-diopside tertiary diagram

MODÈLE 9

MODEL 9

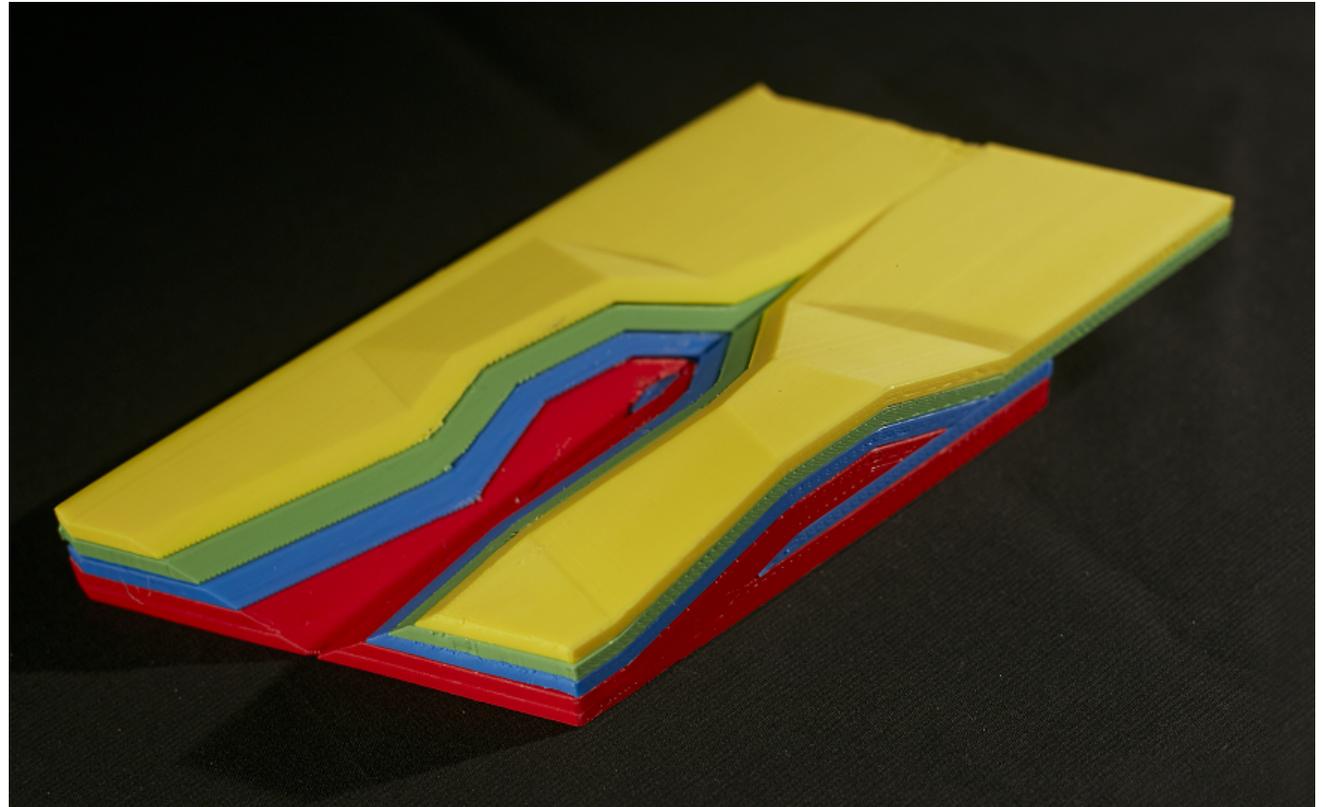

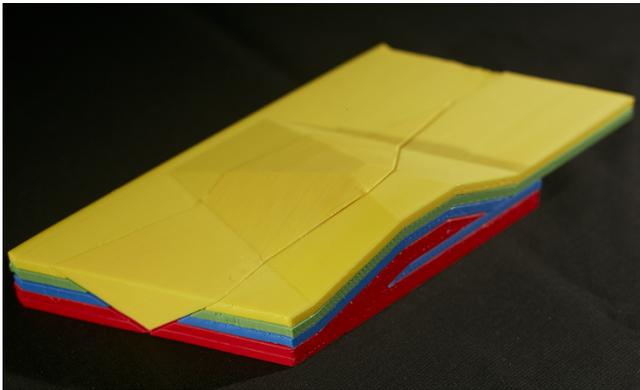

Morphologie en domaine plissé simple (style jurassien)
Geomorphology of simple fold-belt (Jura-like)

MODÈLE 10

MODEL 10

Pli de cintrage sur rampe *Fault-bend-fold*

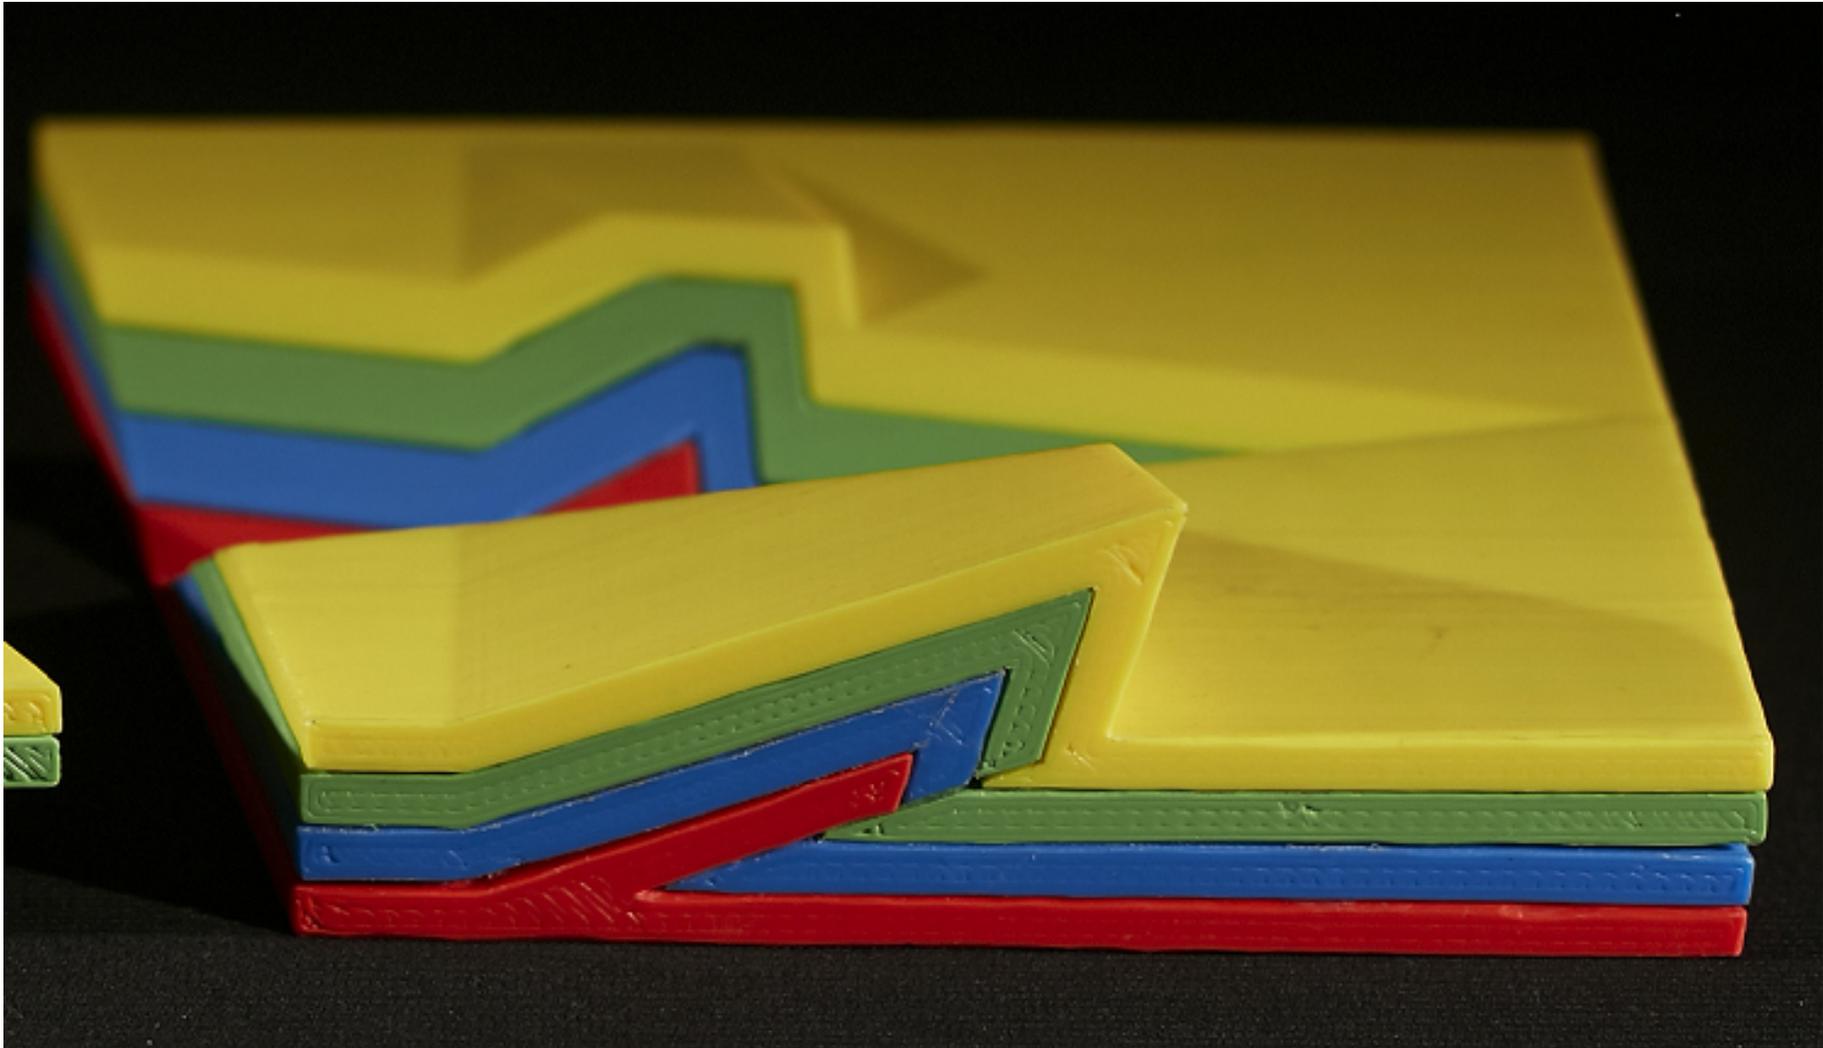

La vallée centrale peut être occultée.

The central valley can be hidden.

MODÈLE 11

MODEL 11

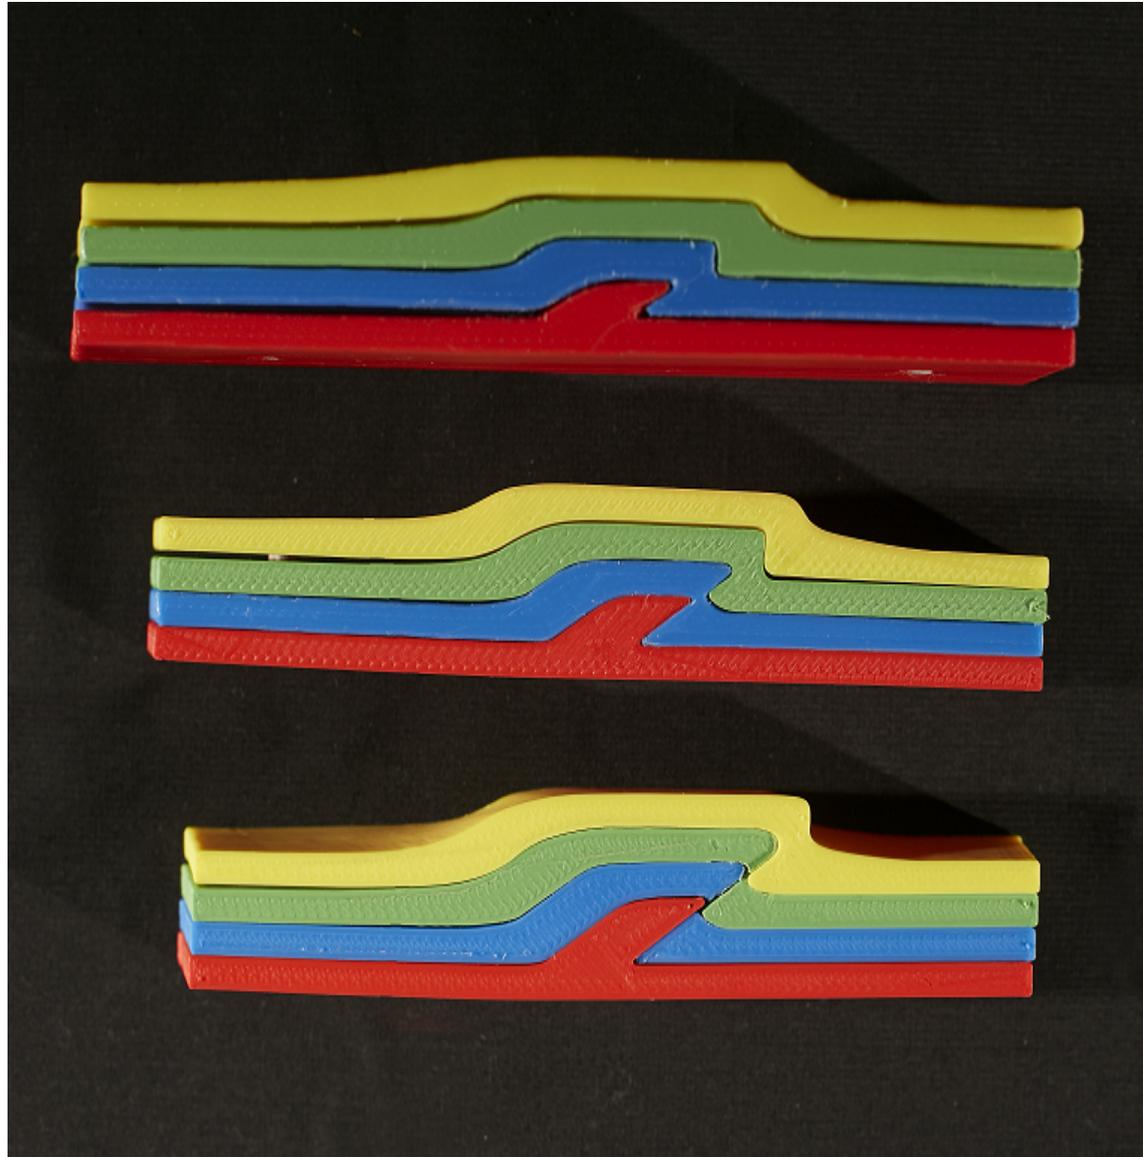

Pli de propagation de rampe
Fault-propagation-fold

MODÈLE 12

MODEL 12

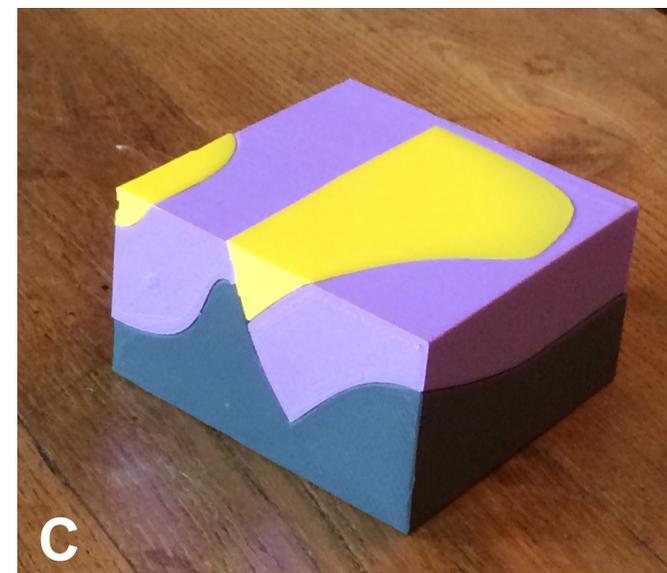

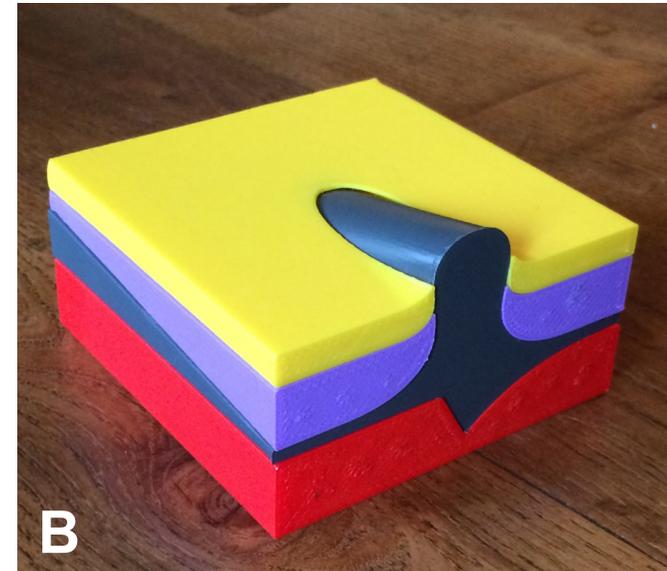

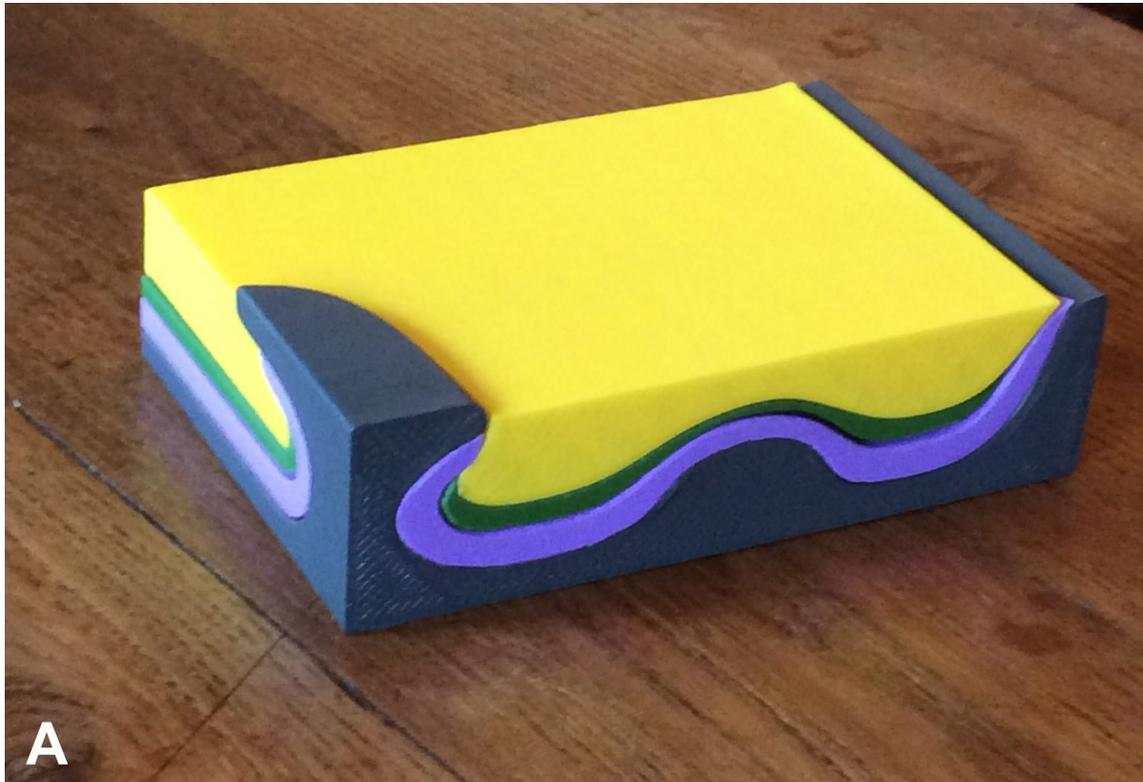

Pli de propagation de rampe (modèle tri-shear)
Fault-propagation-fold (tri-shear model)

MODÈLE 13

MODEL 13

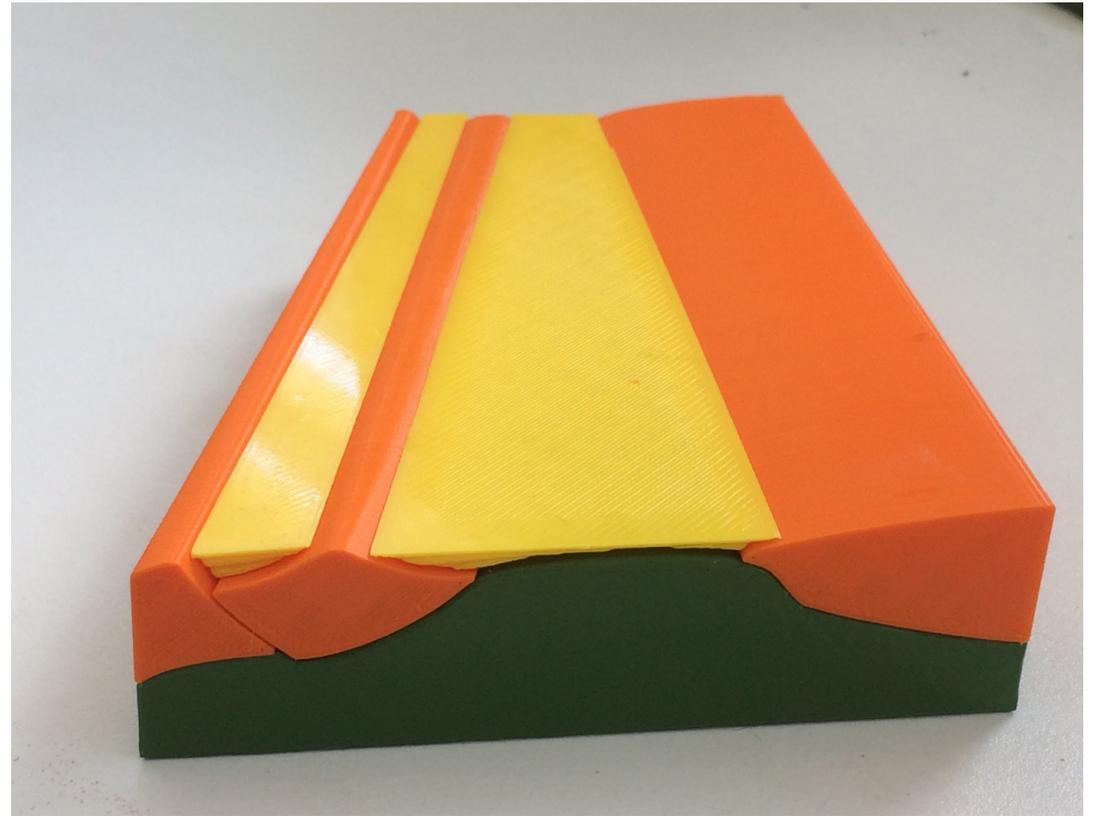

Trois exemples de tectonique salifère
Three examples of salt tectonics

MODÈLE 14

MODEL 14

Exhumation du manteau
Mantle exhumation

MODÈLE 15

MODEL 15

Modèle cinématique d'un pli de rampe
Ramp-related fold kinematic model
